BELLINGHAM MARINE APPOINTS NEW GENERAL MANAGER TO NE DIVISION

Leading marina builder and dock manufacturer Bellingham Marine recently named Michael LaRocque General Manager of the company's Northeast Division.

LaRocque will be responsible for the day to day operations of the division including project administration, detailed scheduling of manufacture and construction activities, and budgeting. A veteran of the construction industry with a background in civil engineering, LaRocque has over 20 years' experience, holding a number of varied positions in the civil engineering and construction management trades.

Prior to his appointment as General Manager, LaRocque was a Senior Project Manager /Operations Manager for Bellingham Marine overseeing design/build projects for the company in the Mid-Atlantic region of the U.S.

"I'm honored to be a part of the best team in the industry and am looking forward to leading Bellingham's Northeast Division toward continued growth," said LaRocque.

"Mr. LaRocque's backgrounds in engineering and effective management of complex construction projects make him the best person to lead the Northeast Division," said Bellingham Marine President, Everett Babbitt. "He has the right mix of experience and drive needed to keep our company moving forward."

Bellingham Marine's Northeast division covers the U.S.'s northeastern states as well as those around the Great Lakes.

As the world's leading marina design-build construction company, Bellingham Marine produces Unifloat® concrete floating dock systems as well as timber and metal frame systems. The company also produces Unistack® dry stack systems for marinas worldwide.
