SUMMARY:

In the Operations / Production Management Intern position you will assist in project proposals, sales calls, and project management. Bellingham Marine will provide on-the-job training in marina planning, estimating, production and construction management. Engineering skills will be *preferred* for interpreting drawings and developing marina designs/layouts. Successful applicant will be required to pass a pre-employment drug screen and will be subject to an administrative criminal background check. Reliability for work schedule is crucial. Travel up and down the West Coast to project sites may be required from time to time.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Develops accurate material take-offs and requests pricing from suppliers and subcontractors with General Manager (GM) and Project Development Manager (PDM) to create accurate project estimates and proposals
- Ability to grasp technical concepts of products in order to accurately describe the products to potential customers and clients.
- Assists Project Manager in communicating and reviewing coordination of material orders, subcontractor, and supplier schedules with project teams.
- Tracks project costs and performance metrics against budgets to report on projects to GM and Project Manager (PM)
- Assists Operations Manager and Project Managers in creating and updating job files.
- Actively participates in internal business meetings and presents ideas and/or concepts to promote and encourage company efficiency.
- Assists plant employees with the creation of concrete floating docks, including the creation of forms, casting, sub-assembly, and finishing.
- Assists Project Manager with freight and shipping for product delivery.
- Other duties as assigned.

QUALIFICATIONS:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

EDUCATION and/or EXPERIENCE:

Entering 3rd or 4th year of engineering or construction management degree, or equivalent

COMPUTER SKILLS:

To perform this job successfully, an individual should be proficient with MS Word, MS Excel, MS Outlook, and MS Project or other project scheduling software. Proficiency with computer aided drafting software is a plus.

LANGUAGE SKILLS:

Ability to read, analyze, and interpret shop drawings, project schedules, general contract provisions or governmental regulations, general business periodicals, professional journals, technical procedures, and documents such as safety rules, operating and maintenance instructions, and procedure manuals. Ability to write reports and business correspondence. Ability to effectively present information and respond to questions from groups of managers, clients, customers, and the general public.

MATHEMATICAL SKILLS

Ability to read and interpret all types of blueprints and drawings. Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Ability to compute rate, ratio, and percent and to draw and interpret bar graphs. Ability to calculate figures and amounts such as discounts, interest, proportions, area, circumference, and volume.

REASONING ABILITY

Ability to define problems, collect data, establish facts, and draw valid conclusions where at times only limited standardization exists. Ability to interpret an extensive variety of technical instructions in written, oral, mathematical, diagram, or schedule form. Ability to solve practical problems and deal with a variety of concrete variables in situations.

CERTIFICATES, LICENSES, REGISTRATIONS

Valid Driver's License AND satisfactory driving record required.

OTHER QUALIFICATIONS

Must be willing to travel to the various jobsites when required. Must be organized.
